## New taxa of Cephalopoda described by Kir Nesis

---

F. G. HOCHBERG

*Santa Barbara Museum of Natural History, Santa Barbara, USA*

Taxa listed by publication in alphabetical and chronological order by author. New taxa indicated in bold face.

Repositories:

MNHN — Muséum National d'Histoire Naturelle, Paris, France

NMNH — National Museum of Natural History, Smithsonian Institution, Washington DC, USA

SAM — South African Museum, Cape Town, South Africa

ZIN — Zoological Institution, Russian Academy of Sciences, St.-Petersburg, Russia

ZMB — Zoological Museum, Humboldt University, Berlin, Germany

ZMMU — Zoological Museum of Moscow State University, Moscow, Russia

Khromov, D.N., I.V. Nikitina & K.N. Nesis. 1991. Three new species of cuttlefish *Sepia (Doratosepion)* from western Indian Ocean with new data on *S. (D.) mascarensis* (Cephalopoda, Sepiidae). *Zoologicheskyy Zhurnal*, 70(6): 12-24, 4 plates [In Russian].

*Sepia (Doratosepion) saya* Khromov, Nikitina & Nesis, 1991: 13, pl 1.

Status: Valid species [fide Khromov *et al.*, 1998: 119].

Repository: ZMMU Holotype Y-357 [fide Ivanov & Sysoev, 2000: 108].

Type locality: [Indian Ocean], Saya-de-Malha Bank.

*Sepia (Doratosepion) tala* Khromov, Nikitina & Nesis, 1991: 17, pl 2.

Status: Valid species [fide Khromov *et al.*, 1998: 125].

Repository: ZMMU Holotype Y-359 [fide Ivanov and Sysoev, 2000:108].

Type locality: SW Madagascar, off Cape Tala.

*Sepia (Doratosepion) bathyalis* Khromov, Nikitina & Nesis, 1991: 18, pl 3.

Status: Valid species; *Sepia bathyalis* [fide Khromov *et al.*, 1998: 87].

Repository: ZMMU Holotype Y-361 [fide Ivanov & Sysoev, 2000: 108].

Type locality: SW Madagascar.

Nesis, K.N. 1971a. A new form of squid of the genus *Histioteuthis*, from the eastern Pacific. *Zoologicheskyy Zhurnal*, 50(10): 1463-1471, 2 figures. [In Russian].

*Histioteuthis corona cerasina* Nesis, 1971a: 1463, figs 1-2.

Status: Valid subspecies [fide Voss *et al.*, 1998: 340].

Repository: ZIN Holotype.

Type locality: [Pacific Ocean], 00°01'S, 84°59'W.

Nesis, K.N. 1971b. The family Gonatidae — abundant squids of the North Pacific (their distribution, ecology, systematics and phylogeny). In: *Fourth All-Union Meeting of the Investigation of Molluscs: Molluscs Trends, Methods and Some Results of Their Distribution. USSR Academy of Sciences, Zoological Institute*: 63-65 [In Russian].

(*Boreoteuthis*) Nesis, 1971b: 65.

Status: Valid subgenus of *Gonatopsis* Sasaki, 1920 [fide Nesis, 1987: 196].

Type species: *Gonatopsis borealis* Sasaki, 1923; by original designation.

Nesis, K.N. 1972a. A review of the squid genera *Tanionius* and *Belonella* (Oegopsida, Cranchiidae). *Zoologicheskyy Zhurnal*, 51(3): 341-350, 4 figures [In Russian].

*Belonella pacifica borealis*, Nesis, 1972a: 343, fig 2.

Status: Valid species; *Belonella borealis* [fide Nesis, 1987: 274].

Repository: ZIN Holotype.

Type locality: [North Pacific Ocean], 44°07.8'N, 150°26.7'E.

*Belonella pacifica pacifica*, Nesis, 1972a: 342, fig 1.

Status: Subspecies not valid; =*Belonella belone* (Chun, 1906) [fide Nesis, 1987: 274].

Repository: NMNH Holotype 332946.

Type locality: East China Sea, 31°39'N, 129°20.5'E.

Nesis, K.N. 1972b. Two new species of gonatid squids
